

FACULTY

Bernard Friedland, BChD, MSc, JD

Dr. Friedland earned his dental degree from University of Stellenbosch School of Dentistry and trained in oral radiology at the University of Toronto School of Dentistry. He is an associate professor of Oral Medicine, Infection and Immunity at Harvard School of Dental Medicine. He heads the Division of Oral and Maxillofacial Radiology and is responsible for teaching all pre- and post-doctoral radiology courses. His clinical interests include the radiographic diagnosis of conditions affecting the jaws, as well as the use of digital imaging modalities in dentistry. He is a member of the Massachusetts Bar and has also published widely in the medico-legal and ethics literature.

Glenn Hanna, MD

Dr. Hanna earned his medical degree from Georgetown University School of Medicine in 2010. He completed his fellowship training in hematology and medical oncology at Dana-Farber Cancer Institute and joined the faculty of the Center for Head and Neck Oncology there in 2017. Dr. Hanna's clinical and translational research efforts are focused on both molecular and immunologic biomarker discovery to foster precision medicine approaches to treat head and neck cancers and improve patient outcomes. He has additional interest in precision medicine approaches to treat salivary cancers of the head and neck, and in using cell-free DNA to treat and monitor human papillomavirus (HPV)-associated head and neck cancers.

Vikki Noonan, DMD, DMSc

Dr. Noonan graduated from Tufts University School of Dentistry and completed her oral pathology training at Harvard School of Dental Medicine. She is an associate professor and director of the Division of Oral Pathology at the Boston University Henry M. Goldman School of Dental Medicine and is co-director of the Center for Oral Pathology at StrataDx. She is a Fellow in the American Academy of Oral and Maxillofacial Pathology and is a Diplomate of the American Board of Oral and Maxillofacial Pathology. Her clinical interests include the diagnosis and management of conditions affecting the oral mucosa and the jaws.

Sook-Bin Woo, DMD, FDSRCS (Edin)

Dr. Woo is an associate professor at Harvard School of Dental Medicine and graduate program director for Oral and Maxillofacial Pathology. She graduated from Harvard School of Dental Medicine and received her oral pathology training in Indiana University and Harvard University, her head and neck pathology training at Long Island Jewish Medical Center, NY, and her oral medicine training at the Brigham and Women's Hospital. She is board-certified in both oral and maxillofacial pathology and oral medicine and is co-director of the Center for Oral Pathology at StrataDx, a pathology laboratory in Lexington, Massachusetts. She received the Distinguished Senior Faculty Award from the Harvard School of Dental Medicine in 2012.
