Dr. Brooke Blicher

Dr. Jennifer Gibbs

Dr. Jarshen Lin and Dr. Brooke Blicher will present an evidence-based approach to managing endodontic emergencies during the Covid-19 pandemic. During this presentation, our experts will review up-to-date protocols including the incorporation of telehealth into endodontic diagnosis, modifications to definitive care and, recently updated guidelines for pain and antibiotic prescription. Participants will have the opportunity to ask questions during the presentation. This discussion will be moderated by Dr. Jennifer Gibbs.

About CPE Today.

CPE Today is an initiative by Harvard School of Dental Medicine's Continuing Professional Education, created in response to the changes in the field of dentistry that we are experiencing today due to COVID-19. These discussions with dental and other healthcare professionals will provide scholarly and practical conversations on how we can navigate the challenges we are facing as a dental community.
